OPEVA server

Docker containers use the stacked-block symbol

Web interface

Backend API

Job Orchestrator

A

A Common job interface: requests, status and progress

Shared storage

Datasets, configurations, logs, results and model files

Persist

A

Worker Agent

Docker adapter

Host Docker

4 / 5

Experiment

CityLearn

A

Worker Agent

Deucalion adapter

Remote execution

Adapters stay on this server

SSH

A

Worker Agent

Union adapter

Remote API

Personal computer

A

Worker Agent

Docker adapter

Host Docker

Experiment

CityLearn + controller

CPU / GPU

Jetson Xavier

A

Worker Agent

Docker adapter

Host Docker

Experiment

CityLearn + controller

ARM64 / GPU

Deucalion

Slurm

Resource allocation

Experiment

Singularity / Apptainer

Compute nodes

Union

GPU

Task service

Remote submission

Experiment

GPU task

Object-store transfer

Experiments execute training (4) or evaluation (5) and retain their outputs.
